

RMRBank Personal Accounts Suite

(for Nokia Communicator 9500/9300)

Installation Guide

[RMR Software - www.rmrsoft.com](http://www.rmrsoft.com)

Introduction

Welcome to our Personal Accounts Suite for the Nokia Communicator 9300/9300i//9500.

As it stands, this shareware version is fully-working with no disabled functions, but will allow only a limited number of entries, such as 3 Accounts, 5 Standing Orders, 5 Budget Categories, 5 Shares and 5 Rooms for the Home Inventory etc. Registration will give you more realistic values, such as 20 Accounts and 50 Standing Orders in each Group, and 50 Budget Items, 50 Shares and 20 Rooms. Please note that registration does not involve reloading the program, but simply typing in a registration code to release the 'lock'.

If you have any problems, first make sure you have read this file, and visited the [Frequently Asked Questions \(FAQ\)](#) section of our Web Site.

If that doesn't answer your question then contact us at support@rmrsoft.com.

Installation

If you do not have them already installed you need to install the OPL Runtime and OPX files. So double-click on the OPL_9300_9500_V156.sis file. Ignore the 'Unverified supplier' message. Now do the same for the OPX_9300_9500_V157.sis file.

Now install the program by double-clicking on the RMRBank.sis file. My apologies for the "Unverified Supplier" message, that will cost a fortune to get registered and until I sell quite a few copies of the program I can't afford it.

Running the Program

Start the program by selecting the 'RMRBank' icon.

If the message "Cannot start the application": appears then simply re-install the OPL Runtime. This is yet another bug in the Symbian Installer program that they haven't fixed. Unfortunately I cannot do anything about that.

If you fancy a challenge, you can learn everything you need to about the program by playing with it and checking the effect of each MENU selection, as well as the effect of pressing <ENTER>, <DELETE>, <TAB>, or <ESC>, in each screen, and by reading the built-in Help file. In addition you will find a "RMRBank Instructions" document file installed in the top level Communicator folder. Our advice is that you work through the tutorial in Part 1 of these instructions, which will familiarize you with all the basic capabilities of the program, and then go on to discover the advanced functions, add-on modules and configuration options in Parts 2 and 3. If you do 'fly blind' and get into trouble, please read the rest of the instructions, and the FAQ on our Website, before asking for help. In particular, if you think there should be a specific function, it is probably there somewhere, so check the instructions before you suggest it to us!!

Registration

If you wish to register the program, you can do so by post (snail-mail), or on-line using a credit card. The registration fee is £20 or 30US\$. (plus \$5 if using REGNET)

If you wish to register on-line using a credit card you have 2 options:

PAYPAL

We now support the PayPal systems for transferring of money, as that avoids any handling charges added by third-party retailers. Simply send the money to registrations@rmrsoft.com quoting the program you wish to register and the platform on which you are running it (Nokia 9330/9500), and we will send the registration code to you as soon as we receive the notification.

If you are not already signed up for PayPal it is very straightforward to join. Just go to www.paypal.com and follow the instructions.

REGNET

Alternatively you can register on the WWW through RegNet, the Registration Network (Note that paying by this method will involve an extra US\$5 handling charge, and following recent EU legislation you will have to pay VAT if you live in the EU). RegNet can be reached by e-mail: orders@reg.net or on the World Wide Web: <http://www.reg.net> or in the USA by calling 1-800-WWW2REG (1 800 999-2734) or the easiest way is by following the links from my WWW Home page at:

<http://www.rmrsoft.com/>

This program has been allocated the RegNet Number: 9779 and this should be quoted. The notification tends to get to us within 12 hours and we reply as soon as possible.

If you are using the postal service, please send a cheque (check) payable to 'RMR Software' (or the equivalent in 'real money' in your actual currency - no foreign currency cheques please), to one of the following addresses, including a stamped address envelope (or an E-Mail address) for the reply:

RMR Software
c/o 6000 Natick Court
Burke, VA 22015
USA

RMR Software
c/o 46 Mortimer Road
Kempston
Bedford
MK42 8RE
ENGLAND

Please note that these are the addresses of our 'agents'. If you use these addresses, Registration codes will be sent out fairly quickly (provided they are not on holiday), but if you send a technical query it will have to be redirected to us, so might take longer to reply. If you have internet access, we can be reached quickly at support@rmrsoft.com

In each case, we (or our agent) will then send you a personalised registration code to enter (select the option via the Menu) to remove the 'nag' screen and allow full use of the program. Note that you will NOT need a new copy of the program, all the functionality is already there but just needs 'unlocking' by the registration code. We will also ensure that this code remains forward compatible for future versions of the program so, unlike other programs, we will not be asking for a further fee for an upgrade to the Nokia version.

Other Programs from RMR Software

If you like this program, why not have a look at our other programs. A full list is as follows...

RMRBank	: Personal Accounts Suite
RMRTask	: Extended ToDo Manager
RMRFuel	: Fuel Consumption Monitor
RMRCar	: Company Car Manager
RMRExpenses	: Expense Account Manager
RMRHome	: Home Inventory Manager
RMRInvest	: Investment Portfolio Manager
RMRNotes	: Notepad/Jotter
RMRArt	: Drawing / Graphics Program

RMRBoxx	: Sokoban Logic Game
RMRFruit	: Fruit Machine Game
RMRPush	: Puzzle Game
RMRDiet	: Diet/Weight/Exercise program
RMRUtils	: Status/Converter/Utility program
RMRSol	: Solitaire Card Game
RMRGolf	: Solitaire Card Game
RMRShop	: Shopping List program
RMRReverse	: Othello Board Game
RMRTV	: TV Scheduler program
RMRData	: Encrypted Data Handler
RMRVactrac	: Employee Leave Tracker
RMRTester	: Revision Assistant

Some of these are also available in other languages, such as French, German, Spanish, Dutch, Italian, Danish, Czech, Swedish, Norwegian, Polish etc. See our Web Site for details.

The latest versions should all be available at the same location where you found this program. If you cannot get them, a disc and Stamped Addressed Envelope to any of the addresses in the Readme or Help file will get you copies of all the programs. (Make sure you specify the platform).

Alternatively, you can always visit our Web Site where there are full details of the programs, and news of any upgrades or enhancements or known bugs. Again, the address is:

www.rmrsoft.com

Program History

1.7 Initial release for Nokia 9300/9500

2.0 Major upgrade to implement full Nokia 9300/9500 compatibility, and to speed up program shutdown to avoid problems with Nokia Backup/Sync. Plus the following enhancements:

- a. Program now senses the type of phone it uses so it can configure itself accordingly.
- b. On the Nokia 9300/9500 it defaults to storing header files in \My files\RMR\ instead of \Documents\ as it uses in the Nokia 9210. Similarly, all backups are now stored in \My files\RMR\Backups\ and exported files in \My files\RMR\Exports\.
- c. On the 9300/9500 Ctrl+Arrow keys now work as PgUp/PgDn/Home/End, and the joystick and <Enter> keys work correctly.
- d. Added support for the 'Open Financial Exchange' (OFX) Import/Export system to be used by Quicken 2005 and many on-line financial institutions.
- e. An Import option added to the Archive screen to make it easier to transfer data from previous versions.
- f. A new Reference field for Accounts for free text input.
- g. A new "Full tank (Y/N)" option added to the Fuel module so you can enter interim fills.
- h. Bottom CBA button now returns you to Graphic 'splash' screen (or Accounts screen if you change Preference).
- i. A number of cosmetic changes as recommended by users.

2.1 Incorporates all outstanding user requests:

- a. You can now have up to 100 Budget Categories and up to 70 Direct Debits/group.
- b. You can have Multiple Planners now, allowing different Groups to have their own Planning function.
- c. There are now multiple reminders in the Fuel module.
- d. Direct Debit values can now be specified as "Variable" and you are asked for the value when it is actioned.
- e. The filter in the Archive screen can now filter on "Account" as well as the other options.
- f. The Direct Debit "Action now" date can now be the date of action or the original date.
- g. The single 'B' key now switches the Balance window in the Transaction screen.
- h. The single 'M' key now switches the Middle Column in the Archive screen.
- i. An Import option for the Fuel module and the Home Module is now available, for those people moving data from other platforms.

- j. The Import folder is now remembered to avoid having to change it if you do not use the default.

2.2 Incorporates all outstanding user requests:

- a. The Password function has been improved so that you can now apply a Global password for the program itself, or password protect individual Groups.
- b. The password can now be set with a delay function so that it does not appear for a certain time after switching away from the program and switching back.
- c. The Auto-Interest system can now have a Category and a Reference allocated.
- d. The Auto-Interest payment has the 'Estimated' attribute set.
- e. Budget screen now has an Export option.
- f. All export options now allow CSV and ASCII.

Licence Agreement

All software products from RMR Software Limited are made available under the terms of the "End User Licence Agreement" (EULA) set out in the following sections.

Notice to users: Carefully read the following legal agreement. Use of the software provided with this agreement (the "SOFTWARE") constitutes your acceptance of these terms. If you do not agree to the terms of this agreement, promptly remove the SOFTWARE together with all copies from your computer. User's use of this SOFTWARE is conditional upon compliance by user with the terms of this agreement.

END USER LICENCE AGREEMENT

The software is protected by copyright law and international treaty provisions. You acknowledge that no title to the intellectual property in the software is transferred to you. You further acknowledge that title and full ownership rights to the software will remain the exclusive property of RMR Software, and you will not acquire any rights to the software except as expressly set forth in this licence. You agree that any copies of the software will contain the same proprietary notices which appear on and in the software.

GRANT OF LICENCE

This RMR Software Licence Agreement ("Licence") permits you to use one copy of the RMR Software product downloaded, which may include user documentation provided in electronic form ("SOFTWARE"). The SOFTWARE is licensed to a single user. The SOFTWARE or its component parts may not be separated for use by more than one user at any one time. However, you may install the SOFTWARE on more than one computer, provided it is solely for the use of the licensee.

REVERSE ENGINEERING

You agree that you will not attempt to reverse compile, modify, translate, or disassemble the software in whole or in part.

DISTRIBUTION

Webmasters, platform manufacturers, dealers, distributors, agents, publishers or any other third party are permitted to copy or distribute the SOFTWARE, provided it remains in the same format as the product available from the RMR Software Web Site. It is NOT permitted to copy or distribute any of the component parts of the SOFTWARE. Establishing an Internet link to the RMR Software web site is permitted, and is encouraged, in order to facilitate access to the SOFTWARE.

COPYRIGHT

The SOFTWARE (including any images and text incorporated into the product) is owned by RMR Software and is protected by copyright laws and international treaty provisions.

LIMITED WARRANTY

To the maximum extent permitted by applicable law, RMR Software disclaims all warranties, either express or implied, including but not limited to warranties of merchantability and fitness for a particular purpose. In no

event shall RMR Software or its suppliers be liable for any damages whatsoever (including, without limitation, damages for loss of business profits, business interruption, loss of business information, or other pecuniary loss) arising out of the use or inability to use this RMR Software product.
